

Remembering Becky -

Becky and Steve Schenck

Beyond Words

IBJ Publishing

In 2006, former Christamore House Guild president and long-time volunteer, Becky Schenck, was a healthy, vibrant, active woman in her fifties when glioblastoma multiforme (stage-four brain cancer) struck her without warning. Steve left his executive banking career in 2007 to become Becky's sole, full-time caregiver. Becky was blessed with a decade of life beyond her prognosis.

Beyond Words is the Schencks' inspirational story of faith, hope and love in the face of terminal brain cancer. It will touch anyone whose life has been affected by cancer and provide insights and resources for those caring for a terminally ill patient. It is a real-life love story and a first-hand look at the joys and challenges that accompany life with brain cancer; and a reminder that even with cancer, life is none the less beautiful and worth living to the very end.

The Christamore House Guild is truly blessed to have had Becky as a part of our organization and are thrilled to be able to offer their book, *Beyond Words*.
